

Dear ***,

How are you doing?

This is *** from Anitoa, which is one of the world's few manufacturers of a variety of enzymes, as well as IVD products. Our core competencies and principal areas of activity in R&D, manufacturing encompass and clinical diagnosis. We are an evolving international company, which develops, manufactures and markets a wide range of specialized life science research reagents and IVD Products that simplify, accelerate and improve life sciences research and clinical diagnosis. Our vision is to position Anitoa at the forefront of human, animal and plant health through continuous innovation.

Now we would like to introduce our IVD kits for small animals. For details, please find product list as attachment for your kind reference.

Main features:

1. An integrated mobile lab in one backpack: one real-time PCR and one kit
2. Simple reagent components: reaction tube of IVD kits for small animal and 5G qPCR Premix
3. Certificates of ISO 9001:2015

Should you have interest in more details, please let us know, we will be glad to assist any time.

Looking forward to hearing from you soon.

Thanks and best regards.

IVD Kits for Small Animal

 **An integrated mobile lab in one backpack**

This package includes one real-time PCR instrument and one kit. All parts could be contained by a backpack. Where it would be needed, where it could arrived.

 **Reagent Components**

Part A: Reaction Tube of IVD Kit for Small Animal

1 tube (for single reaction)/bag x 8

Part B: 5G qPCR Premix

80 μ L/tube, 1 tube (for 8 times reaction)/bag
